What are the consequences if I fail to make payments as scheduled?

Delinquent accounts are referred to a collection agency, and borrowers become responsible for paying all collection costs, including legal fees, that the agency incurs to collect the balance owed. Past due interest continues to accrue on delinquent accounts referred for collection. Delinquent accounts are also reported to credit bureaus, which impacts the ability of borrowers to obtain other forms of credit in the United States, such as home mortgages, car loans, or personal loans.
