Interests:

Please describe briefly which general scientific areas are of most interest to you (biology, chemistry, physics/engineering, mathematics, computer sciences), and which particular research topic you would like to become involved in. Refer to <http://www.kgi.edu/academic-programs/reu-program.html> for a listing of research projects offered through our Research Experiences for Undergraduates program to undergraduate student interns. Please note that not all of these research projects are available to high school student interns! We will do our best to match you up with a suitable mentor based on your preferences and availability of internship positions for high school students.

Scheduling:

The summer high school internship program runs in parallel with our Research Experiences for Undergraduates program. You may inter at KGI between June 13 – August 12, 2011, for the entire period or a fraction thereof, either full time (40h/week) or part time (minimum 10h/week).
