The Summer Undergraduate Research Experience program for undergraduate research in biotechnology and bioengineering provides undergraduate students the opportunity for cutting-edge, interdisciplinary research in the areas of applied molecular and cellular biology, bioengineering, computational biology, drug discovery and development, as well as exposure to related ethics and business topics.

**2022 Tracks and Dates (online and in-person)**
- Pharmacoeconomics: June 27-July 15 (online)
- Public Health and Virology: June 27-July 15 (online)
- Population Health: June 27-July 8 (online), July 11-29 (in-person)
- Drug Discovery: June 27-July 8 (online), July 11-29 (online)
- Pharmacogenomics and Precision Medicine: June 27-July 15 (online)
- Immunology: June 27-July 15 (online)
- Individual Projects: June 27-July 29 (in-person)

**Who Should Apply**
The program is appropriate for motivated undergraduate students majoring in biology, chemistry, engineering, or related disciplines. One of the program goals is to promote the success of women and underrepresented students in science and engineering.

**Cost:** $20 application fee
