

Master of Business and Science

MBS

KGI's two-year MBS program prepares graduates for exciting careers in the bioscience industries. The program integrates graduate level courses in science and bioscience management. Students have opportunities to work with biotech, pharmaceutical, and healthcare companies, preparing them for influential careers and leadership positions in industry.

Highlights

Hands-on learning

The world-class curriculum combines technical knowledge and business acumen in small, highly interactive classes

Industry connection

Students work closely through company-sponsored projects and faculty with strong ties to the field

Job placement

Over 90% of graduates land a job in the industry within 6 months

Team Master's Project | TMP

Few other schools offer students the real world practice KGI students gain during the TMP, in which teams of three-to-five students work with sponsoring companies in a year-long consulting assignment to solve real problems. Students form interdisciplinary teams and work with faculty, business, and industry advisors to perform contract research. The projects include both business and technical aspects. Student teams create budgets, develop timelines, and describe deliverables. At the end of the academic year, they present a report of their work at the company and KGI.

About the program

The MBS is a two-year residential program that integrates interdisciplinary instruction in translational science, business, and regulatory affairs. The program emphasizes industry experiences throughout the curriculum, both within courses and directly.

Year 1

- Shared experience through group collaborations solving real problems facing industry
- Professional development course including skills workshops and industry talks
- Student-chosen electives to focus on specific career goals

Summer

- Real-world experience during required industry internship
- Launching point into future careers

Year 2

Industry experience through the Team Master's Project

Focused studies through one of seven career-oriented concentrations:

1. Bioprocessing
2. Biotech Management
3. Clinical and Regulatory Affairs
4. Healthcare Economics
5. Infectious Diseases
6. Medical Devices and Diagnostics
7. Pharmaceutical Discovery and Development

What can I do with this degree?

We measure the success of our program by the success of our alumni, and we are proud to share our record of achievement.

90%

Over 90% of alumni placed in industry within six months of graduation.

\$240,000

Average salary five years, post graduation, is over \$240,000.

MBS INITIAL JOB PLACEMENTS, 2018-2021*
